Mr. Dan Carroll  
Austin Triathlon

RE: Waste and Recycling for the Austin Triathlon

Dear Mr. Dan Carroll;

I want to thank you for the opportunity to be included in the success that is the Austin Triathlon. Below I have included the final numbers for the waste and recycling generated and collected at your event.

Container Location	Yardage		Weight
<b>Recycling</b>			
Auditorium Shores	18.26	Plastic/Cardboard/Aluminum/Wood	2,538 lbs
<b>Trash</b>			
Auditorium Shores	1.25		282 lbs
<b>Total Waste Generated</b>			2,820 lbs
<b>Percentage of Waste Recycled</b>			<b>90%</b>

As you can see from the above spreadsheet, Recycling was at 90%. That is a tremendous number and for that you and your volunteers should be congratulated. Recycling is a challenge, and there is definitely a 'human element' that requires the end user to participate.

Recycling Breakdown

Wood	0%
Aluminum	45%
Plastic	22.5%
Cardboard	22.5%

Sincerely,

Ryan Pierce
